Subject: FW: Strategic Foresight Pilot
Attachments: Strategic Foresight Pilot Project.pdf

Hello, I wanted to let everyone know about this pilot project that is currently open on EPA's Skills Marketplace portal **Personal Matters / Ex. 6** The project is described in the attachment, and I won't repeat that text here, but will note that deadline for applications for those interested in applying is August 21. Thank you.

Subject: Strategic Foresight Pilot

All-

David Bloom and I are pleased to share with you the attached memo announcing a one-year *Strategic Foresight Pilot Project*.

This project is jointly sponsored by the Office of the Science Advisor and the Office of the Chief Financial Officer. This pilot is designed to help us better assess possible future challenges, needs, opportunities, and downstream effects of current practices. This could prove to be a very helpful resource for us to think more broadly over a longer timeframe so that we can better inform agency priorities, strategies, resource allocations, and workforce decisions.

If you have any questions about the pilot, please do not hesitate to call us.

David can be reached at **Deliberative Process / Ex. 5** and I can be reached at **Deliberative Process / Ex. 5**

Thank you,

Thomas Burke
Deputy Assistant Administrator, ORD
EPA Science Advisor
